

models\CodeAde\insert

models\CodeAde\update

models\CodeAde\getDeptId

```
graph LR; A[models\CodeAde\insert] --> C[models\CodeAde\getDeptId]; B[models\CodeAde\update] --> C;
```

The diagram illustrates a dependency or data flow. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'models\CodeAde\insert' and the bottom box contains 'models\CodeAde\update'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text 'models\CodeAde\getDeptId'. The arrows indicate that both the 'insert' and 'update' operations depend on or utilize the 'getDeptId' function.
