

views\TelevisionView
\displayFormTelevision

views\TelevisionView
\modifyForm

views\TelevisionView
\buildSelectCode

```
graph LR; A["views\TelevisionView<br>\displayFormTelevision"] --> C["views\TelevisionView<br>\buildSelectCode"]; B["views\TelevisionView<br>\modifyForm"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. Two source methods, `views\TelevisionView\displayFormTelevision` and `views\TelevisionView\modifyForm`, are shown in white boxes on the left. Blue arrows point from each of these source methods to a target method, `views\TelevisionView\buildSelectCode`, which is shown in a gray box on the right.
