

models\Department\delete

models\Department\update

models\Department\getIdDepartment

```
graph LR; A[models\Department\delete] --> C[models\Department\getIdDepartment]; B[models\Department\update] --> C;
```

The diagram illustrates a dependency or mapping relationship. On the left, there are two separate boxes: the top one contains the text 'models\Department\delete' and the bottom one contains 'models\Department\update'. Both of these boxes have a blue arrow pointing towards a single, larger box on the right. This right-hand box is shaded gray and contains the text 'models\Department\getIdDepartment'. The arrows indicate that both the 'delete' and 'update' operations are associated with or depend on the 'getIdDepartment' operation.
