

controllers\InformationController
\displayVideo

controllers\InformationController
\informationMain

controllers\InformationController
\endDateCheckInfo

```
graph LR; A["controllers\InformationController<br>\displayVideo"] --> C["controllers\InformationController<br>\endDateCheckInfo"]; B["controllers\InformationController<br>\informationMain"] --> C;
```

The diagram illustrates a flow or dependency. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'controllers\InformationController' followed by '\displayVideo' on a new line. The bottom box contains 'controllers\InformationController' followed by '\informationMain' on a new line. On the right, there is a gray rectangular box with a black border containing the text 'controllers\InformationController' followed by '\endDateCheckInfo' on a new line. Two blue arrows point from the right side of the two white boxes to the left side of the gray box. The top arrow originates from the right edge of the top white box, and the bottom arrow originates from the right edge of the bottom white box.
